

## **Dorf Ketal Chemicals India Private Ltd and Synthesis Water Solutions form partnership to drive innovation in the future of global water treatment.**

**25th October, 2023 - Dorf Ketal Chemicals India Private Ltd (“Dorf Ketal”) and Synthesis Water Solutions (“Synthesis”) have agreed a long-term partnership initially focussing on APAC, GCC, North American, and South American regions.**

Utilising their global customer base, Dorf Ketal will add the Synthesis product range to their chemical portfolio offering, initially targeting applications in; Petrochemical, Cooling & Process Water, Paper, Desalination, Municipal and the Salt Water Disposal (SWD) sectors.

David Johnson, Executive Vice President Global Operations said:

*“At Dorf Ketal, innovation is what we do. What we saw in Synthesis is a completely new perspective on technology for the multi-billion USD global oxidising biocide market. This market has traditionally had safety and handling problems, including issues of waste production when generating Chlorine Dioxide. We now have a novel approach with a new product that addresses all of those issues, offering safer handling while helping our customers lower their carbon footprint.”*

Chris Dean, Chairman, Synthesis Water Solutions, said:

*“Dorf Ketal’s approach to innovation and new technology aligns well with our ambitions here at Synthesis. We are looking at how we can globalise our products and are seeking best in class partners to do that. Dorf Ketal is an established and growing presence in key markets we are targeting and this partnership gives us reach and accelerated access into those markets.*

Dorf Ketal Chemicals ([www.dorketal.com](http://www.dorketal.com)) is a privately-owned global specialty chemicals company based in Mumbai, India with operations in the Asia Pacific, China, Europe, Middle East, South America, and North America regions. The firm's core strategic focus on new chemistries is reflected in numerous patents and industry recognition for innovation in solving customers' most demanding problems. Dorf Ketal's quality, health, safety, security, and environmental systems are purposely designed to maintain corporate and community resiliency in every country where it operates.

Synthesis Water Solutions ([www.synthesis-ws.com](http://www.synthesis-ws.com)) is a privately-owned chemical company based in the United Kingdom with operations across Europe. Synthesis' focus is the delivery of unique chemistry which is disrupting conventional water use and recycling in established industries including Animal Drinking Water and Hygiene, Aquaculture, Beverage, Cooling, Desalination, Food Processing, Hospitals and Health-care, Irrigation and Horticulture, Municipal Water Treatment, Oil and Petrochemical, and Paper. Synthesis' focus is to deliver more powerful, less polluting, and easier to use chemicals which optimise performance while enhancing safety and sustainability.
